PERPETUATING IMPORTANT VALUES

The YMCA is one of the things that have lasted in this world where so much comes and goes so quickly. It is stable, values-based, professionally managed, in touch with public sentiment and capable of meeting the changing conditions and needs of our future. The YMCA is a gift that we have received—that was already here when we were born. It is a gift that we should give to those still unborn to perpetuate values that really matter.

METHODS OF GIVING

The size of your gift cannot be measured in dollars, but in your commitment. Gifts can be made in numerous ways during your lifetime, or afterwards. Bequests, insurance policies, stocks, charitable trusts, property or direct gifts are just a few ways you can help the YMCA of the Golden Crescent meet the challenges and the opportunities of tomorrow.

INVESTMENT MANAGEMENT

All assets of the Endowment Fund are controlled by the Corporate Board of the YMCA of the Golden Crescent through an Endowment Committee of board members and financial advisors. Interest available from the assets is directed by board authority to ensure the funds are used specifically as intended. When the YMCA Endowment Committee is aware of your financial and philanthropic objectives, it can suggest a plan that takes full advantage of the available tax benefits, while at the same time, fulfilling your desire to benefit future generations of children and families through the YMCA.

USE OF PROCEEDS

Your gift to the Endowment Fund will retain its usefulness over the years, benefiting boys and girls for generations to come. The capital goes forward into the future, while the income meets the needs of today.

BENEFITS OF THE HERITAGE CLUB

As members of the Heritage Club, you will be invited to the yearly dinner where you will learn about the good work your generous contribution makes possible, receive current and informative articles to help you remain up to date regarding financial planning. The YMCA inner circle of friends should control its civic destiny and you can ensure that it remains a source of strength—for today—bringing the promise of the future for all our children. Through your membership we and the YMCA can accomplish much more, together.

DONOR DIRECTED

You can designate what purposes YOUR gift is to be used for and can have that gift memorialized to carry the names of their loved one forward for generations to come. The primary intent is to ensure that value based youth programs can continue to be offered for generations to come.
