NAVIGATING A NEW WAY OF LEARNING

Review our state licensed, extended learning opportunities below.
Whether you opt for remote learning, in-school learning or homeschool, the Y is here for you.

ALL DAY VIRTUAL LEARNING PROGRAM

The school year is beginning remotely but the Y is here to help! Join us for our all day virtual learning program.

We can keep your children socially engaged during the school year, while still getting their school work accomplished. Children will remain in same small group with same staff. Staff will assist with virtual learning logins and setup. All children are required to provide their own device and hotspot (if applicable). Wifi is provided by the Y.

Our program also provides fun activities, STEM and physical exercise. Swimming will be available through October 31.

AFTER SCHOOL PROGRAM

Program is scheduled to begin September 8th. As schools adjust calendars, we will adjust this program's start date.

The Y after school program is state licensed, providing safe, exciting and educational activities for your child. Our staff encourage your child to be involved in the sports, arts & crafts and outdoor activities implemented in our program. We provide homework time daily and structured fun time. STEM activities are also provided.

This program is provided at the Barbara Bauer Briggs Family YMCA, FW Gross, Pinnacle Pointe Apartments and Nursery Elementary. Assigned location will be determined by which elementary school your child attends. Children will be transported by the Y to assigned locations.

YMCA ENRICHMENT PROGRAM

Program is scheduled to begin on September 28th.

Children will have the opportunity to enhance their learning through hands-on activities in a small group setting during 2 hour sessions provided three days a week. Activities will include STEM, group games (indoor and outdoor), arts & crafts and so much more! The Y is committed to helping our kids stay active and engaged during these difficult times.

This program is open to anyone - homeschooled students, VISD virtual learning students, etc.

LIMITED SPACE AVAILABLE. REGISTER NOW!
